Education

Northwest University — Kirkland, WA
Bachelor of Science in Computer Science — *Aug. 2024 – Dec 2026*

South Puget Sound Community College — Olympia, WA
Associate's in Science — *Apr. 2023 – Aug 2024*

Experience

Video Game Develop Intern — Jan 2026 – May 2026
Kidware Software — *Kirkland, WA*

- Authored clean, maintainable **Unreal Engine Blueprint** code across **5+** files, implementing responsive game animations through animation retargeting and custom map design
- Delivered **4–5 assigned features** end-to-end, proactively communicating progress and technical decisions to supervisors in a hybrid team environment
- Took full ownership of each task from scoping to completion, maintaining consistent delivery across all assigned milestones

Dining services associate — Mar 2024 – Sep 2026
Northwest University — *Kirkland, WA*

- Served 300+ customers daily as part of a 5–7 person team, collaborating to maintain food safety standards and efficient service flow
- Delivered student-centered service in a high-volume cafeteria environment, consistently handling diverse dietary requests with professionalism

Projects

CampusShare | *Python, Vue, Azure, Cloudflare, JavaScript* — Jan 2026 – May 2026

- Designed a campus-only sharing platform supporting **4 core MVP features** (borrow, request, sign-in, sign-up) across **5 sprints**, with verified university login
- Architected and deployed **7 backend services** including email delivery, image upload, and borrow request logic on **Microsoft Azure**, with **Cloudflare** handling DNS, SSL, and performance optimization
- Defined MVP requirements, architecture documentation, and sprint milestones to drive iterative delivery of platform features

Board Web Application | *Spring Boot, React, MySQL, JavaScript, Java* — June 2025 – Aug 2025

- Built a full-stack bulletin board with **3 core modules** (authentication, posts, comments), backed by **4–5 relational tables** and role-based access control
- Developed **4 RESTful API endpoints** with Spring Boot to handle backend logic, MySQL database interactions, session management, and input validation
- Implemented secure user flows including login, sign-up, and verification, enforcing input validation to prevent unauthorized access

Technical Skills

Languages: Java, JavaScript, Python, C++, SQL (MySQL), HTML/CSS
Frameworks: React, Vue, Vite, Node.js, Vercel, Spring Boot
Developer Tools: Git, Claude Code, Microsoft Azure, Cloudflare, Unreal Engine
Concepts: Computer Architecture, OS, Data Management
